

h2o Laiton Sideboard (Code: 12051)

This design of this couture piece is inspired by the surface of water. The door surfaces are carefully mantled in a hammered, welded and molded brass clad over its artistically uneven surface, creating the impression of wavy waters. Small pittings and light imperfections on the brass are indigenous to the handmade process of metal forming and are to be expected. The mahogany interior carries one adjustable glass shelf in the center section and the encasement is mantled in Parchment-Goatskin.
